COURSE OBJECTIVES

This 42-hour training program is designed for students already familiar with the basics of Spanish vocabulary, pronunciation and grammar. It's also a great opportunity to deepen your knowledge of the culture behind the Spanish language. This is a student-centered program with focus on the development of communicational skills for moderately complex contexts of language.

This course is ideal for adult learners who wish to continue acquiring Spanish as a second language in a highly engaging and challenging setting, where no time is wasted. You will even speak Spanish during your coffee break!

Our highly qualified instructors will speak in Spanish from beginning to end, helping the students, in this way, to develop better listening comprehension skills and real time interaction in the target language.

By the end of this course, students will have developed the following skills:

- Initiate, sustain and end simple conversations about different topics, including past experiences and future plans, understand the majority of questions and instructions spoken at below-normal speed, and read and write simple texts.
- Get familiar with both regular and irregular verbs in the complex past, conditional, future, future perfect, past subjunctive, imperative and present subjunctive tenses
- Learn vocabulary related to a range of different cultural, current affairs and news topics.
